WORK EXPERIENCE

Intern

IBM, India

07/2024 – 08/2024

Remote

Achievements/Tasks

- Learned foundational concepts of Cloud Computing and Artificial Intelligence.
- Explored IBM Cloud Watson Studio and its applications in data analytics.
- Gained knowledge of model building with detailed algorithm explanations.
- Worked with Auto AI tools and Discussed and analyzed Linear Regression (LR).

Contact: rccindia@in.ibm.com

Intern

LetsGrowMore

01/2023 – 02/2023

Remote

Achievements/Tasks

- Expanded knowledge of relevant industry regulations, codes, and standards to ensure projects were completed in compliance with all requirements.
- Assisted senior developers in designing and implementing new systems, improving overall project outcomes.
- Conducted regular reviews of operations and identified areas for improvement.

Contact: info@letsgrowmore.in

Intern

The Sparks Foundations

11/2022 – 12/2022

Remote

Achievements/Tasks

- Facilitated the successful completion of projects from concept to launch.
- Conducted extensive research for startup company projects.
- Collaborated with senior developers on new initiatives to build confidence.
- Secured the **internship completion certificate** for delivering the outcome **report** within the deadline.

EDUCATION

Bachelor of Computer Application (BCA)

Maharishi Arvind Institute of Management

Studies, Jaipur

10/2021 – 06/2024

SKILLS

C/C++

NodeJS

React

Express

Git

PHP

MongoDB

SQL

HTML5

CSS3

Javascript

PROJECTS

Doctor Appointment Website (10/2024 - 11/2024)

Tech: MERN Stack

URL - prescripto1.vercel.app

1. Developed a full-stack Doctor Appointment Booking system using the MERN stack.
2. Implemented 3 levels of authentication: Patient, Doctor and Admin.
3. Enabled patients to book and manage appointments through a dedicated dashboard.
4. Designed a doctor interface for appointment tracking, earnings and profile management.
5. Built an Admin Dashboard for managing doctors profiles and appointments.
6. Integrated online payment gateways for secure transaction processing.
7. Utilized MongoDB for database management and Express.js/Node.js for backend functionality.

Imagify (Text to Image Generator) (11/2024 - 11/2024)

Tech: MERN Stack

URL - imagify-f.vercel.app

1. Built a Full-Stack AI SaaS application using the MERN Stack for a Text-to-Image generator.
2. Implemented a credit system for image generation with an online payment gateway for purchasing credits.
3. Developed user authentication for account creation and login, storing user data securely in MongoDB.
4. Integrated Clipdrop API for AI-based image generation.

ACHIEVEMENTS

National Chess Tournament Participant

Competed in National Chess Tournaments twice, which has sharpened my analytical skills and taught me the importance of preparation and adaptability

Microsoft Career Essentials in Generative AI

Learned about computer ethics, artificial intelligence, and generative AI in depth and gained valuable skills.

Software Engineer Intern - Hacker Rank

I showed proficiency in coding, problem-solving, and algorithm design by completing the assessment for the software engineering internship.
