KEY ACADEMIC PROJECT

Title: Tic-Tac-Toe Game

Objective: The 'Tic-Tac-Toe Game' project developed for educational purposes, allowing the users to play a friendly game which develops logical thinking and improves the ability to concentrate and focus. It helps to develop strategies such as blocking the other players and keeping them from winning while trying to win yourself.

Technology used: Web Design platform (VS Code).

Result/Outcome: Created a game for the users to get a better platform for playing and practicing their skills for better prediction.

ACHIEVEMENTS

- Designated as the head of the Chess Club in Central Academy Sr. Sec school (2018).
- Managed the football team participating in State level games.
- Completed SQL Bootcamp (2022).
- Completed 2020 Full stack Web Developer Course (2022).
- Awarded as Winner of the Inter-College competition of MAISM college in Chess competition (2023).

STRENGTHS

- Strong skills in programming languages, databases and web development.
- Proven track record in analyzing complex problems with logical thinking and innovative approaches.
- Ability to work effectively as part of a team, contributing to successful group projects.
- Excellent Communication Skills: With interaction and presenting technical information effectively.
